Petrol Pump Canopy
manufacturer

PEB Structure
Manufacturer

All Fabrication
& Installation work

2016

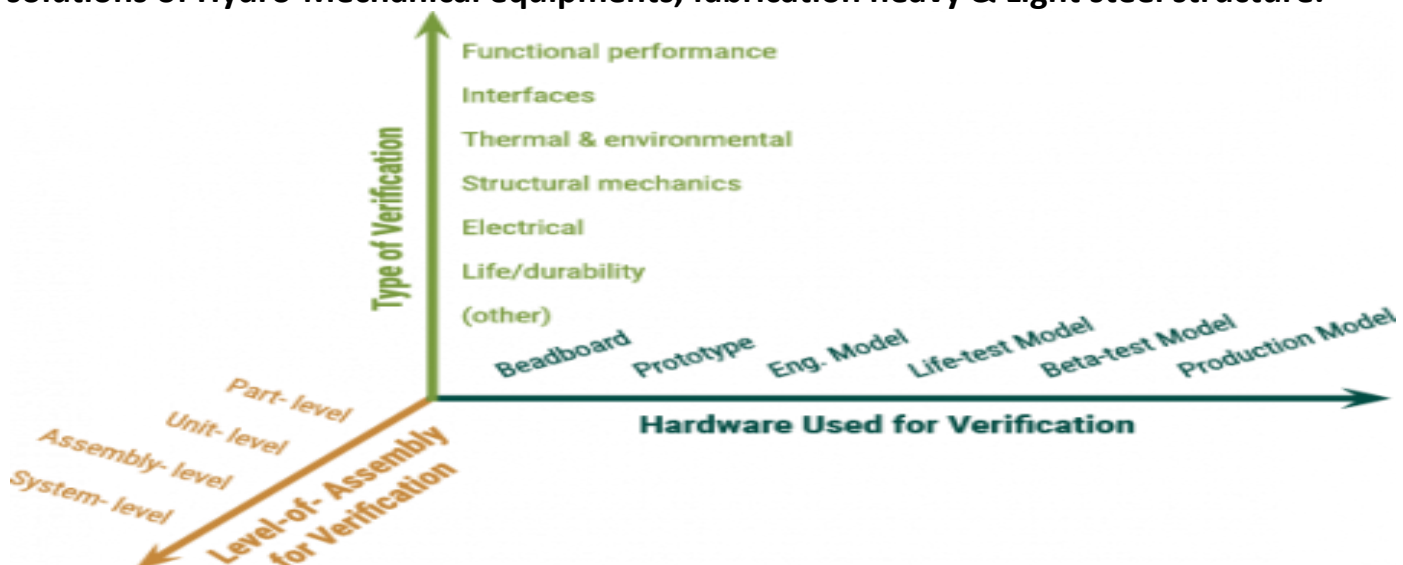

PEB (Pre-Engineering Building) Structure.:-

In structural engineering, PEB Structure Manufacturer apply the process of fabricating the raw materials from all sources and manufacturing it to a nice aesthetic design. PEB is an enclosed system that always comes with a structural system. It often comes with a roof and wall cladding. The structural system comprises of rigid frames and roof beams and columns that are bolted together. These frames in turn span a large distance together. As PEB Manufacturer and PEB structure manufacturer, we have a team of PEB Manufacturer having an experience of more than ten years. This PEB Building is also used in retail manufacturing stores, shopping centers, motels, office complexes, sports and entertainment arenas.

We Deals with petro sector/retail industries such as New retail outlet, Petrol Pump Installation, Canopy Installation/ Maintenance, Erection and Fabrication of Steel Structure, PEB Structure and Civil work of these all structures, turnkey solutions of Hydro-Mechanical equipments, fabrication heavy & Light steel structure.

Rv Engineering Works, one of the leading manufacturing companies in India, Established in the year 2016, Rv Engineering Works is a distinguished manufacturer and service provider offering an enormous consignment of Petrol Pump Canopy, PEB Structure, Petrol Pump Canopy Installation Service and Structure Fabrication Work. Immensely acclaimed in the industry owing to their preciseness, these are presented by us in standard and modified forms to our clients. To add, only optimum class material is utilized in their production. These presented by us in various provisions, these are inspected sternly to retain their optimum quality.

Industry Snapshot:

We Deals with petro sector/retail industries such as New retail outlet, Petrol Pump Installation, Canopy Installation/Maintenance, Erection and Fabrication of Steel Structure, PEB Structure and Civil work of these all structures, turnkey solutions of Hydro-Mechanical equipments, fabrication heavy & Light steel structure. We are supported by a team of trained and diligent workforce that is hired from some of the best talents present in the market. Working in synchronization with each other, some of the main members of our crew include quality testing personnel, R&D executives, marketing executives, logistics personnel, packaging personnel and administrative staff. Chosen after stern examinations of their knowledge and skills, these have assisted us in completing bulk orders of our customers in between the assured span of time. Under the administration of **Mr. Pankaj Raghuwanshi**, we have garnered a reputed position in this highly competitive industry.

Background and Development:

The first market opportunities for commercial canopy and PEB structures began with the petrol pumps and production industry's development of high strength and standard Canopy and PEB shed. In 2016 the market of the PEB structure and canopy work broadcast in all over Madhya Pradesh and Chhattisgarh.

Rv Engineering Works, have support by our team of trained and diligent workforce that is hired from some of the best talents present in the market. Working in synchronization with each other, some of the main members of our crew include quality testing personnel, R&D executives, marketing executives, logistics personnel, packaging personnel and administrative staff. Chosen after stern examinations of their knowledge and skills, these have assisted us in completing bulk orders of our customers in between the assured span of time. Under the administration of **Mr. Pankaj Raghuwanshi**, we have garnered a reputed position in this highly competitive industry.

The first market opportunities for commercial canopy and PEB structures, began with the petrol pumps and production industry's development of high strength and standard Canopy and PEB sheds. In 2016 the market of the PEB structure and canopy work broadcast in all over Madhya Pradesh and Chhattisgarh. For a long journey we have done a turnkey project of hydro mechanical equipment like radial gate, vertical gate and heavy steel projects. Now we are looking forward with our hardworking team and best supporting member of the company. Now we are moving on other states of India like Maharashtra, Orissa, Uttar Pradesh, Bihar, Karnataka, Punjab, etc.

Industry Snapshot

To become one of the preferential selections of our clients, we are working in a keen way right from our establishment in this industry.

Industrial experience of our technical team has a lot of experience including our **M.D. Mr. Pankaj Raghuwanshi**. They have Ten year of canopy Manufacturing and erection of canopy and more than two year experience of fabrication & Erection Dam gate. And also have a lot of experience in CAD designing & CAD management system. Our Production team work under the guidance of Production manager/Quality In charge **Mr. Praveen Chourey**, manage the production timely and dispatch with the quality of product.

The Growth of Company depends on Marketing Department of the company, **Mr. Rishi Gangrade** is marketing manager of our company, for their reference and by efforts of our marketing and technical team we have planed next two year of projects in petro and retail sector.

Develop and implement HR strategies and initiatives aligned with the overall business strategy, Support current and future business needs through the development, engagement, motivation and preservation of human capital, Ensure legal compliance throughout human resource management.

Measure of the effectiveness with which a mechanical system performs. It is usually the ratio of the power delivered by a mechanical system to the power supplied to it, and, because of friction, this efficiency is always less than one

Mechanical efficiency is a dimensionless number that measures the effectiveness of a machine in transforming the power input to the device to power output.

We are manufacturing canopy and PEB products for the Madhya Pradesh, Chhattisgarh and Karnataka sites. Where the n number of petrol pump have completed with the civil and fabrication and installation work and n number of petro canopy are in under Construction and also n number of RIL petrol station in maintenance.

If we talk about other projects like PEB sheds and Irrigation & Dam we have experienced of ton of steel material both in Fabrication and erection work.

Really Large product of PEB and canopy, Rv Engineering Works, is the largest producer of medium-density of steel structure product.

The company is growing, and it's growing too fast with their current and upcoming projects.

Following are the reasons behind the success of our Company:

- Easy payment options
- Timely Dispatch
- Huge distribution network
- Supportive Staff
- Quality Production

Mechanical Engineering

**Our
Strategies
And Work**

We have number of experienced team, they have **30+ year** of experience in the field of heavy and medium projects such as PEB structure Projects, Irrigation & DAM Projects, Retail industry Projects, to deliver the work time to time, the production of our job done sharply within The time-duration of commitment of the work order and after that we have to dispatch the material installation for site work, within the date of work order the canopy installed on your site with all accessories of product. Our production and installation can be fast according to the customer requirement or our commitment.
